Y. M. C. A. NIGHT SCHOOLS DOING GOOD WORK

More than 40 students have been attending the classes in English conducted by the county Y. M. C. A. in the government school building of Lihue.

Under the capable direction of Miss Huddleson and Miss Anthony, two of our teachers who have had experience in other places in Americanization work, the boys are making splendid progress.

The material used in the class work is of a nature that acquaints the student with the things which he comes in contact during his working hours. Text books presenting the various phases of the sugar industry are being used, every word the student acquires makes less possible misunderstanding.

With the beginning of the month the schedule as drawn up by the recently appointed educational committee will be followed.

The present classes will be divided and more instructors added as the numbers demand, so that adequate supervision may be given all who attend.

Thirty interested young men presented themselves at the first meeting of the Koloa night school last Thursday evening.

Wherever sufficient interest and numbers are found the educational committee will endeavor to find teachers and supply the materials for these classes in English and Americanization.

DORMITORY HI-Y CLUB IS STARTED

The following are the minutes of the organization meeting of the Lihue Dormitory Hi-Y Club held last Saturday evening:

We started in with some games. Mr. Locke, the Y.M.C.A. secretary, told us about the Hi-Y Clubs of the world and showed us some pictures about them. He emphasized the working system of a successful Hi-Y Club and told of the many interesting things that a Hi-Y club could do. Our regular meeting will meet on Saturday night except the last Saturday of the month when the boys go home. The following officers were elected:

President, Sado Yokomoto.
Vice-president, Jacob Maka.
Secretary, Shinichi Nishimoto.
Treasurer, Shimkichi Nishimoto.
The adoption of the constitution and outlining of program were left until the next meeting.
The following are members:
Suchi Kamel, Wataru Tanaka, Junichi Sakimae, Ernest Weoner, Shigoru Sugawa, Gichi Yokomoto, Gochi Kawakura, Edwin Kam, Liu Kin Kam, Ah Kong Kam, Peter Leong, Antone Camara, Wo Cheong Wong, Fusoa Tanabe, Yan Keon Chack, Takeliko Tashima, Tautomu Nitta, James Chang, Katsumu Tanimoto, Francis Chang.
Signed: Shinichi Nishimoto, Secretary.

KEKAHA SENIOR Y CLUB IS INAUGURATED

Racial lines were obliterated last Sunday night when fourteen well known young men of Kekaha met in the Japanese school house and outlined a season's program in accordance with the plan of the county Y. M. C. A. which is being promoted by the county committee of that organization.

Under the leadership of S. Hamata the club will meet every Sunday evening to participate in a program of varied and interesting activities. Parliamentary drill was found of interest and value in last night's first meeting. After the singing of a number of patriotic songs, Secretary Locke spoke of the possibilities of a Y Club to furnish worthwhile recreation and a comprehensive program of wholesome activities. All present requested that the meeting proceed to the selection of officers and other necessary steps for the carrying on of the program.

After spirited speeches of nomination and open electioneering of the candidates the following men were chosen to head the affairs of the club:

Mr. Yamanaka—President
Mr. Imatomi—Vice-president
Mr. Yamada—Secretary
Mr. Tomogasu—Treasurer.

The following men are charter members: Messrs. Frank, Okihara, Kono, Ishu, Julian, Makaawaawa, Watanabe and Corralles.

This club offers a splendid illustration of the opportunity afforded by the county Y. M. C. A. to bring together representatives of the different races under conditions that develop and encourage right attitudes toward country, employer and each other.

The Worst Speed

"How fast can your car go?"
"Just fast enough," said Mr. Chuggens, "to break the road rules, and not fast enough to keep ahead of the cop."—Washington Star.

ELECTRIC APPLIANCES

Modern Ways for Modern Days

THE WESTINGHOUSE and EDISON GOODS

Electric ware provides modern ways for modern homes.

Woman demands, and rightly so, easier, quicker ways of doing household tasks. The many electrical home conveniences made by the above concerns enable her to enjoy new comforts and a new freedom.

Each piece of Electrical Ware adds not only to the efficiency but to well-designed home equipment. Each piece is not only useful but distinctly good to look at.

Make your home a home electrical and enjoy the advantages of using up to date ways for these up to date days.

Why are these appliances modern? Because the heat is directly applicable, instant and intense, safe, sanitary and sure. No wicks, no oil, no dirt, no smell, no waiting.

PRICES? They're universally priced the world over, whether New York, Shanghai, Honolulu, or Lihue, the prices are the same.

We have just received a new assortment, but, unlike Oliver Twist's gruel, there is more to follow. However, we will mention some of the articles on hand and would be pleased to show and explain any that would suit your convenience.

TURNOVER TOASTERS

The toaster that *everybody* uses. Automatically turns the slice. Piping hot toast right on the table.

RADIANT GRILL

Fries, broils, boils or toasts—cooks two foods at one time. Furnished with metal dishes. Three heats. When used with ovenette becomes actual table range.

RECTANGULAR GRILL

Performs all the operations of the Radiant Grill but a different style.

DISC STOVES

A four-inch small and light stove for the traveler, the roomer and the home.

IMMERSION HEATER

Now, Miss Old Maid, and Mr. Bachelor—here's a device that you can put in a glass of water and make it piping hot in *less than a minute*. Great for shaving water, fellows!

There are many other devices in the stock, curling irons, etc.

And remember this—we have two- and three-way sockets that permit of the use of these appliances without forfeiting any light.
